

Sprinkler/Booster Pumps

Model
3790-95

- **Cast Iron Construction with 300 Series Investment Cast Stainless Steel Impellers**
- **Buna-N Mechanical Seal and O-Ring**
- **Optional Viton® Seal, Check Valve and O-Ring Available on Single Stage Models**
- **1-1/2" or 2" NPT Ports Sizes**
- **Maximum Temperature 180° F**
- **Maximum Flow 157 GPM**
- **Maximum Head 180 Ft.**
- **Self-Priming to 20 Ft.**
- **Single Stage (379/365 Series) Two Stage (478 Series) Construction**
- **Single Stage Models Feature Removable Dual Volute Design**
- **Available with 3/4 to 7-1/2 HP Single or Three Phase Motors**

AMT Sprinkler/Booster pumps feature 300 Series Investment cast stainless steel closed impellers for high efficiency and resistance against erosion caused by abrasive particles. All models self-prime to 20 feet. Single stage models feature dual volute design to reduce radial load on motor and a built-in check valve to ensure fast priming after initial liquid is added to the pump. Cast iron construction provides durability and low maintenance. Easy cleanout design includes replaceable dual volute/diffuser and casing o-ring for servicing. Two-stage models provide additional pressure in fractional horsepower sizes for multi-sprinkler head applications. Type 21 mechanical seals handle maximum working pressure to 150 PSI. Pumps are available from 3/4 to 7-1/2 HP with Open Drip Proof (ODP) or Totally Enclosed Fan Cooled (TEFC) motors.

400 Spring Street • Royersford, PA 19468 USA

(*) Standard NPT (Female) pipe thread.

(**) This dimension may vary due to motor manufacturer's specifications.

(+) 3-Phase models can also operate on 50 Hz (This will change full load amps and service factor, RPM and priming capabilities).

NOTE: Dimensions are in inches (centimeters) and have a tolerance of ± 1/4".

NOTE: Electric supply for ALL motors must be within ±10% of nameplate voltage rating (e.g. 230V ±10%= 207 to 253).

Standard Features

- Cast Iron Construction with 300 Series Investment Cast Stainless Steel Impeller
- Buna-N Mechanical Seal and O-ring
- ODP & TEFC Motors Available on 1-1/2" NPT Single-stage Models
- Removable/Replaceable Volute/Diffuser
- Maximum Solids:
 - 365X Series—5/16"
 - 379X Series—1/16"
 - 478X Series—1/16"
- Single Stage Models Feature Removable Dual Volute Design
- Self-priming to 20 Feet
- Maximum Working Pressure to 150 PSI
- Maximum Temperature 180° F
- Optional Mounting Base for Pumps with JM Motors (**Model 365x Series**)
- QSP – Quick Ship Pump for Many Models
